Statement EU Pressure Equipment Directive 2014/68/EU (PED)

Dear customers of Schwer Fittings,

Schwer Fittings manufactures and distributes articles which fall within the scope of the EU Pressure Equipment Directive 2014/68/EU (PED). Schwer Fittings takes all corresponding requirements into account during the development process and implements them during production, technical approval and placing on the market.

All items provided by Schwer Fittings, which must be marked with a CE marking, are marked accordingly. Items provided by Schwer Fittings without CE marking are either pressure equipment of Cat. 0 according to the Pressure Equipment Directive 2014/68/EU (PED) or so-called “simple” components that are not covered by the Pressure Equipment Directive. In both cases, CE marking is prohibited by law.

For the correct assessment of items according to the Pressure Equipment Directive 2014/68/EU (PED), the respective operating conditions and, in particular, the operating media are of crucial importance. Restrictions regarding the operating media for our Schwer Fittings products are given on the respective data sheets and must be followed.

For any questions or uncertainties, our product experts are always available to assist you.

With best regards

Schwer Fittings GmbH

Martin Hauser – Head of product management
